

Make the smart choice

Suncomfort by Glatz

From partying with friends to simply relaxing in a deck chair and letting the world go by, fans of the great outdoors know how important it is to have the right protection from the sun.

Suncomfort by Glatz parasols impress with their unbeatable value for money and iconic design. They offer flexible functions to suit customer needs, their resilience is legendary, and in the unlikely event of a defect, customers can carry out any repairs themselves.

Draw inspiration from Suncomfort by Glatz.

Put yourself in our hands

- We benefit from the expertise of leading parasol manufacturer Glatz with its 125 years of experience
- Thanks to representation, distribution and warehouses across Europe, we can ensure a steady supply of stock, even during the season
- Our parasols impress with their unrivalled value for money and iconic design
- In the unlikely event of a defect, we offer an online spare parts shop and step-by-step repair videos to enable customers to easily carry out repairs themselves

Take advantage of the benefits

- We always support you locally, even at global level
- Your surface area productivity is increased thanks to various up-selling possibilities. Seamless reordering is guaranteed – even during the season – with attractive, comprehensive offers for your customers
- We stand for flexible solutions in line with demand, because we focus on efficiency at all times during our process-oriented service delivery

Fabric collection

All fabrics in the Suncomfort by Glatz fabric collection offer grade 6 lightfastness (first colour changes after 160 days). Made of 100% polyester 180 g/m², they are water-repellent and provide UV protection of more than 98%.

Varioflex Solar LED

300 × 300 cm

With its integrated LED lighting, the Varioflex Solar LED creates a unique, atmospheric ambience. The battery is charged conveniently by the solar panel or optional by the mains via USB, with a lighting time of around six to eight hours.

Depending on the sun's position, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

Product benefits

Fabrics and colours

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

100% aluminium with powder coating in texture silver

Included in the scope of delivery

Protective cover

Turning cross base
8 × (40 × 40 × 4 cm), min. 120 kg, slabs not included

Also available

Ground socket

Functions

Varioflex

300 x 300 cm

330 x 270 cm

Varioflex impresses with its flexible positioning. To provide optimum shade whatever the position of the sun, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

Product benefits

Rotation left and right

Crank handle

360°

Sunflex

300 x 300 cm

Sunflex can be optimally adjusted to the position of the sun with effortless ease. The canopy can be tilted towards the mast via the slider, enabling Sunflex to provide shade even in the setting sun.

Thanks to the turning base, the parasol rotates 360° around its own axis. A crank handle is used to open and close the parasol roof.

Flex Roof

210 × 150 cm

Flex Roof is the perfect balcony parasol. It is multifunctional and with its sleek design takes up minimum space while maximising the shade it provides. The parasol roof can be tilted, rotated and slid in all directions. Steplessly adjustable in height, it not only provides perfect protection from the setting sun, but also ensures privacy at all times.

Push Up

Ø 250 cm

210 × 150 cm
250 × 200 cm

Push Up is the ideal small to medium-sized garden and balcony parasol. It is not only steplessly adjustable in height, but can also be tilted to the left and right thanks to its tilt joint. Shade is provided no matter the position of the sun. A three-step snap lock ensures the constant optimum tension of the parasol fabric. Extending fast and smoothly, the parasol is popular with people who appreciate ease and efficiency and it is also attractively priced.
